

NATIONAL IN-HOME CARE

2024 - 2025 Schedule of Fees

Home Care Management Package Fees in Australia

Aged Care Providers must charge care management and package management fees that are set by them but which are capped by the government. They are essential components that recipients need to understand. Below is a breakdown of what these fees typically entail:

	Level 1	Level 2	Level 3	Level 4
Care Management	65.00	115.00	250.00	400.00
Package Management	50.00	80.00	185.00	300.00
Total / Fortnight	115.00	195.00	435.00	700.00

Care Management Fees

Care Management is a mandatory service that includes regularly assessing your needs, goals and preferences. It includes the creation of a home care agreement, budget and care plan. Your provider must ensure that the care and services provided align with your care plan and other supports. It includes organising, rostering and scheduling your services at the days and times you need them and ensuring that the care and services you receive are safe. Your provider must also identify and mitigate any risks to your safety, health and wellbeing.

Care Management Fees fund activities such as assessing your care needs, developing a personalized care plan, arranging services, coordinating with healthcare professionals, monitoring your progress, and adjusting the care plan as needed. The amount can vary depending on the provider and the level of package assigned to you and is deducted from your Home Care Package funds before services are provided.

Package Management Fees

Package Management fees are charged by your provider and cover the costs associated with managing the financial aspects of your Home Care Package. These fees typically include managing your budget, processing invoices from service providers, handling payments, providing financial statements, and ensuring compliance with relevant national regulations including the Aged Care Commission.

Similar to Care Management fees, the amount can vary between providers and are deducted from your Home Care Package funds every month. It's important for recipients of Home Care Packages to review the fee structure carefully and understand how these fees impact the overall budget available for your care services.

Care Service Fees

Care Services are a fee-for-service that allows you to access support through the Government packages.

For a variety of reasons, many Australians have a strong desire to continue to stay in the comfort and familiarity of their own home, despite some deterioration in their health and capacity to carry out the essential tasks of daily living. With the right services and support this can be overcome. The government's "Home Care Package Program" may be able to assist you to pay for the care to stay at home.

At National Inhome Care we endeavour to provide best practice quality care for a reasonable rate to ensure you can access value for your funding.

Cancellation	Notice period before standard charge is applied	24 hours

Private Fees (out of pocket)

National Inhome Care understands that in some cases, clients will wish to have home care services delivered on their own terms and may elect not to be part of a government assisted scheme or alternatively, would like to supplement their supports privately to access additional supports in addition to the Government assisted schemes.

Private home care is a fee-for-service option that allows you to access support immediately. It represents an alternative to government funded Home Care Packages and allows you to receive the support you may need to live independently without the hassle of Government assessments, tests and subsidies.

These Private Fees are in line with sister entity, National Community Care Private Fees.
